Hey There, we had Texas Cable Doctors LLC come out to our home to mount our 50" samsung tv on the fireplace. Surprisingly to my wife & I they were 10 minutes early. These guys were very curtious and friendly. They got right to work and was very carefull working around our furniture. They did a fantastic job and cleaned up the area. (my wife tried to get them to clean the rest of the house) LOL :) . The tv looked better than I thought it would and no wires showing. They explained how everything worked and thanked us for letting them work for us. I will definitely recommend them to my friends. Great Job Gentlemen

Very happy with Texas Cable Doctors' work, which was to install several runs of Cat5e cabling between four different rooms, run speaker cables for a 7.1 home theater system and mount/connect the rear and center surround speakers, and install a pair of concealed stereo speaker cables in the living room. Lee spent a good hour surveying our house and attic, provided a reasonable quote within 48 hours, and was able to start the work within the next week. Work was completed fuss free and to spec. They used good quality materials. Were able to run the concealed speaker cable around a fireplace that another company had said was not possible. Came back at no charge two months after the installation to troubleshoot and repair one of the Cat5e points that had failed. The only minor comment I would make is a little more time on masking off work areas to prevent dust, etc and on ensuring faceplates etc are mounted absolutely level and flush would be worthwhile -- but maybe I'm just fussy!. Very good value for money and I would not hesitate to use Cable Doctors again.

The Texas Cable Doctor is truly a life saver. I recently had my television mounted above my fireplace by Installing Flats, and they never returned to finish fishing the wires for a wireless look. I called Lee at Texas Cable Doctor and he came to our rescue. Our 46" LCD is mounted above our fireplace on an outside wall of our home. After being told by numerous businesses that this installation was impossible, Lee proved them all wrong. Lee came into our home assessed the situation and came up with a plan of action. He did not cut any corners and was straight up with us about what he needed to do to get the job done right. He remounted our electric box above the fireplace, and moved over our existing cable outlet for a hidden look behind our bookshelve that houses our components. He then fished a 25' HDMI cable through the wall, so that it is completely concealed behind the wall. He did not drill a series of holes to fish the wire, instead only drilled the one hole necessary to bring the cable back through the wall into the back of the tv. The job that Lee did was amazing and the price that he did it for was much less than any other installation estimate that I received. Lee is insured and has been in the business for many years and is great at what he does. I highly recommend Lee to anyone that is looking for work done whether it be basic electric work to pre wiring a new home to hanging you television. I will definitely be using him again in the future and have already given his information to several friends and family. Lee, thank you once again for your hard work and dedication, the setup looks awesome.

07/31/2009 i tried to get an estimate from two installation companies to mount my 46"sony flat screen..they both turned it down because they said it was not possible to hide the necessary cables above the fireplace through our small attic...it took alot of extra effort from these guys but the job turned out excellent and with no add on pricing the necessary cables above the fireplace through our small attic...it took alot of extra effort from these guys but the job turned out excellent and with no add on pricing

Excellent work by the Texas Cable Doctors technician. I called them to mount my new 50" lcd tv above my fireplace. They showed up 10 minutes early & greeted me with a smile. After looking over where I wanted it they gave me the cost(which by the way was cheaper than everyone else I called). They mounted the Tv and hide all the wires in the wall and also cleaned up the area and connected my dvd player for free. I would recommend these guys to everyone.

Awesome job! I'm very satisfied with their services and will be a repeat customer. I highly recommend Texas Cable Doctors. Lee and Robert were very professional in the installation of my 52" and my 32" flat screen HDTV's on the wall. They will treat your home with respect and offer great services for a reasonable price.

Hello,
this is Bert Stephens again, I currently moved and had the Texas Cable Doctor: Lee come over and he did a wonderful job once more. The quote was right on the \$ and the service was impecable. He was recently at my mothers house to help her w/her compter and Comcast's digi box they could not fix. HMMMMM Well great job, and when needed I will call again on this team of installers. My next idea is speakers in the living room with suround sound system. Can't wait!!!!

01/09/2008 I was extremely satisfied with service I recieved from these guys. I had them install two new cable outlets and hook up one existing outlet. The installer came after work and completed the installation in one evening. He even stayed to complete the installation that required some outside work in the pouring rain. I would highly recommend them to anyone looking to add connections and I will

Very professional job. Our new house didn't have cable or phone lines throughout the house (as one would expect). Lee from the TX Cable Doctors wired 3 rooms at a reasonable price. He studied the existing cable and places he could wire the other rooms cost effectively and recommended a couple of changes to our request. His knowledge and experience saved us money and we still got what we wanted and needed. If we need any future wiring done, we will definitely call the Texas Cable Doctors again.

Phone Jack Installation: I passed by a truck on the way home from work that had advertisement for phone installation. I took a chance and called him up. Turned out to be a great move. He followed me home and did the job right there on his way home. He did an excellent job! I will be recommending his service to others.

03/12/2007 Don't Call Anyone Else But These Guys!!: GREAT SERVICE! PROFESSIONAL!!! ON-TIME!!!!!! VERY PICKY!! GREAT RATES!! VERY FRIENDLY!!! I had two televisions hung. The first (larger) television went up without incident. The second smaller television had the wrong wall mount. I had to go back to the store TWICE to get a mount that would work. HE WAITED PATIENTLY FOR ME TO RETURN! He even hooked up my dvd player and showed me how to use it!!! I can't say enough about these guys. Purchase your plasma from anywhere. CALL THESE GUYS TO MOUNT IT!!! They get all the thumbs up that I can find!! THANK YOU for the great service!!

Great job guys: These guys were at my house an hour after I called. They were very curious & professional. I needed 2 cable outlets put in and they walked me thru how they were going to do it and how much it would cost. They were done in less than 2 hours and even cleaned up the area (to my surprise). They told me that if I had any problems to just call. I would surely use them again. Thanks Guys.

Lee came out to my house on a Sunday to mount a Plasma on a wall. The job proved to be unusual, but he was able to come up with solutions that worked out wonderfully. Way to go that extra mile! I will be sure to recommend Cable Doctors
